COAST CLIPPINGS.

The Arizona barley crop this season will be the largest for many years.

There is said to be 500 immigrants en route from Ohio to Wasco county, Oregon.

Messrs. Tisdall and Harvey recently planted 4,500 trout in the small stream emptying into Los Gatos.

The Veterans' Home Association has been offered by ten citizens of Stockton the donation of 236 acres of rich alluvial land, in a state of high cultivation, provided the home is located there.

A lady living near San Andreas, filled a syrup can with water, screwed the lid on tight and set it on the stove. Of course the steam soon burst the can, and the lady was scalded by the hot water, which flew all over her.

There has been a fair average catch of seals on Neah Bay and Quilloute, W. T., this season, but owing to the advance in cost of catching, and the decline in value in foreign markets the season's business on the whole has been unprofitable.

It is believed that there are 5,000 elk ranging on the headwaters of the streams and tributaries heading up in the Olympic range, W. T., and putting into Gray's Harbor. Fish, both salt and fresh water, are abundant. It is simply a paradise for sportsmen.

At Klamath river four companies are under full headway in taking out pay gravel, and all the others are crowding along preparations to commence soon. The Kanaka, Lime Gulch and McConnell companies have their derricks in operation, and the Fort Jones is almost ready, only requiring the sluices to be made, which are probably finished by this time. The Centennial, Empire Bar, Mott & Co., and other companies are engaged on their wing-dams, and by the time the water recedes to low water mark they will be prepared to put in head dam and start their derricks.

The Chehalis river, W. T., is a magnificent stream of water over 100 miles in length, and is navigable for ocean steamers for a distance of twenty-five miles eastward from Gray's Harbor. Its valley averages two and a half miles in width, and although settled with a class of thrifty, industrious farmers, yet it has been until quite recently, isolated from commercial intercourse with the outside world. At present there are but two villages and trading posts in the valley—Elm and thirty-one miles southwest from Olympia and Montesano, twelve miles still further down the valley. The latter point is only twelve miles from Gray's Harbor.

According to the Tacoma Ledger, civil engineer Tilton Sheets is organizing a party of Northern Pacific surveyors, which will leave the Kalama-Tacoma railroad at South Prairie and strike out for the Green river passes, one of which is favored by the Chief Engineer above all the Cascade passes explored. His party will be complete in every respect and fully equipped for instrumental work. The object of the expedition under Mr. Sheets is to make a definite location of the line of the Cascade division in the direction of the Garfield pass, which is one of the Green river passes and his line will extend to the mountains. On the eastern side Engineer Ward will be engaged in similar work, definitely locating from the mountains eastward to Ainsworth, thus leaving the location of the mountain portion of the line through Garfield pass for other parties.

A Strange Funeral.
An old man of seventy-five, who died a few days ago at Oshannes, near Tarascon, France, left a clause in his will to the effect that all friends attending his funeral were to smoke pipes while following his remains to the grave, and were to adjourn to a cafe to spend in drink the sum of \$60, specially bequeathed for the purpose. Three hundred men, headed by the Mayor of the village, duly attended the obsequies, which took place without any religious rites. Every follower had a lighted pipe in his mouth, and after the interment the second portion of this curious testamentary disposition was carried out.

CHINESE PASSPORTS.

Consul Bee, on being questioned in regard to the certificates issued to the Chinese who left last Tuesday with the intention of returning, said: "Their certificates have upon the back, in addition to the necessary questions and answers, printed in Chinese, the penal provisions of the Act of Congress, and warning to all Chinese against transferring their certificates. The Chinese descriptions are duplicated, and one copy is filed in a book and numbered. The two are placed side by side, and stamped with the Consul seal—one half of the seal on each, so that the holder of the certificate is confronted with the 'stub,' bearing the half of the seal and the number. The Chinaman having to undergo two examinations, one at the Consul, and the other at the Customs, the chances of fraud are lessened."

EDITORIAL NOTES.

Lieutenant Danenhower's neglect to call on Mrs. Melville when he was in Philadelphia is the subject of severe censure at Washington. The impression is general that Danenhower was jealous of Melville all during the expedition of the Jeannette. One of the two letters received from Melville by Hunt, when he was Secretary of the Navy, goes toward corroborating this. Hunt refused to give portions of Melville's letter out for publication, and it is understood that Melville said that Danenhower's jealousy was so strong that it took the form of insanity. Though Hunt told this in private conversation, he declined to allow the exact language of Melville to be made public.

A correspondent of the Salt Lake Tribune, writing about the coming Mineral Exposition at Denver, says: In New Mexico, Governor Sheldon has taken a warm personal interest in the work and is traveling over the Territory himself, infusing enthusiasm wherever he goes. Governor Trible, of Arizona, is also awake to the importance of the occasion. But little has been heard from Nevada and Idaho, and yet it is not possible that they will remain passive long, when they learn that Dakota, Wyoming, Utah, New Mexico, Arizona and Southern California, will join with Colorado next August in the grandest display of our mineral wealth that the world has ever seen.

The Sacramento papers are in high glee over the decision of Judge Temple in the great and hard-fought debris case. The decision perpetually enjoins the Gold Run Ditch and Mining Company from dumping its tailings into the American river or tributaries, and lays down the broad and universal principle that no man or corporation has the right to use his own property to the injury of others.

Cheap and rapid transportations for the mails seems to be a universal demand. Postmaster-General Howe is considering some proposed changes in this direction and we hope that he may study carefully the suggestion of General Hutton in regard to the free transportation of newspapers.

Blaine's testimony before the Foreign Affairs Committee today, attracted much attention, and the result was very satisfactory to his friends. They feel that the attacks upon his administration have been fairly and fully met at every point and defeated.

It turns out that old Mrs. Tibbets of Adrian, Michigan, did not tell her little boy to wreck a train. Mrs. Tibbets has been insane for six years. The press agent who sent the news is also deranged.

They say that Hancock does not hanker to lead the victorious Democratic host in Pennsylvania. "A burnt child etc."

Guiteau ought to have his own book, "Truth," read aloud to him all the rest of this month. However he might not last until June 30th.

Don Cameron's "306" medal is too heavy to carry through the coming campaign.

TO-DAY'S NEWS

Press Dispatches to RENO GAZETTE.

EASTERN.

More Guano from Peru.

WASHINGTON, June 14.

Ex-Secretary Blaine was again before the Foreign Affairs Committee today. He testified that the United States was asked to establish a protectorate over Peruvian territory, and the immense resources there found for the benefit of four European Governments. These Governments were to gain \$225,000,000 and the United States nothing. This proposition he had always peremptorily rejected. Blaine closed his testimony as follows:

"I wish to repeat what I said the last day I was here. That was, that as I offered myself in perfect good faith for any and every question that could possibly be propounded to me in connection with this investigation, in all its length, breadth and collateral, I am still subject to wishes of the Committee. I have nothing to withhold. I court the most careful and searching investigation into these matters, not only through questions that the Committee may desire to put to me, but through questions that any and every citizen in the United States may desire to ask. If there is any chapter in my life, associated with the great men who have gone, of which I am proud, and where I am sure of complete and absolute vindication, it is that in connection with the policy laid down by the administration of President Garfield with respect to the South American States."

Gold Certificates.

WASHINGTON, June 14.

The House Committee on Banking and Currency, by Representative Dingler, reports with favorable recommendation the bill introduced by him to provide for the issue of gold certificates. The bill authorizes the Secretary of the Treasury to receive deposits of gold coin and bullion in sums not less than \$10, and to issue certificates therefor in denominations of not less than \$10, each corresponding with the denominations of United States notes, such certificates to be receivable for customs, taxes, and public dues, and when so received may be reissued. It also provides that when these certificates are in a National Banking Association they be discounted as a part of its lawful reserve, and may be accepted in settlement of clearing-house balances.

The Value of Two Pairs.

NEWBURGH, N. Y., June 13.

Last night Dr. Montreuil Hedges, dental surgeon and sporting man, was arrested here on a bench warrant, issued by a Justice of the Supreme

Court. The complainant, Francis P. Weed, of this city, charges Hedges and William M. Scott, the latter now dying of consumption in California, with cheating at a game of cards and conspiracy to defraud. It is stated the three played a game of poker in this city on June 1, last year, betting \$150,000 on a single hand, and Weed and Hedges lost. Weed now charges that the hands were put up by Hedges and Scott, they to divide the winnings, and has begun an attachment proceeding against them to recover as much as possible of the plunder.

Another Indian Uprising.

CHICAGO, June 14.

Crook learns that 1,500 Indians were on Powder river below old Fort Kinney but miles from the present fort, and that 100 lodges of Indians were on Rock creek. Stockmen report that these Indians are killing cattle and threatening to attack herders. Gen. Crook deemed it advisable to send troops.

Another Villain Unhinged.

INDIANAPOLIS, June 14.

The severest storm of the season occurred last night. Two inches of rain fell. The city east of the Union Depot is flooded, along the railway track and northwest up Pennsylvania, Delaware and Alabama streets the cellars are rapidly filling. Fifteen or twenty persons were standing on a platform over Pogue run when it gave way and threw them into the water. Some were rescued, others passed through the culvert safely, while some are supposed to be drowned. It is impossible yet to give the number lost.

Two Ships Wrecked.

AUCKLAND, June 14.

Driving a head sea the iron ships "Benvenue" and "City of Perth" parted cables in Timaru harbor, Canterbury, and became wrecks. Alexander Mills, harbor master accompanied by other boats, subsequently boarded the "City of Perth." On attempting to return some of them were capsized. A lifeboat went to the rescue and was twice upset. Seven lives were lost, including Mills.

produce a panic. He will remain a few days to reassure the public.

The bodies of the engineer of the English ironclad Superb and of two seamen of the Helicon, killed in the riot of Sunday, have been buried at sea, as it was deemed imprudent to risk the danger of a funeral on shore.

WESTERN.

Albion Wins Again.

EUREKA, June 13.

In the Albion-Richmond case Judge Rives to-day dissolved the injunction against the former, leaving them free to work their mine. The Albion will at once commence hoisting ore, of which there is a large quantity ready to hoist. This is a great relief to our people, very many of whom are interested in the matter, and it gives assurance of renewed prosperity to this place. The news was immediately telephoned to Ruby Hill, and the ore from the disputed Uncle Sam ground began to be hoisted out as a practical result of the judgment.

LIEBIG MALT EXTRACT.

RECOMMENDED BY PHYSICIANS of the highest eminence on both sides of the Atlantic, as an invaluable Tonic and Restorative in cases of General Debility, Nervous Depression, Racked Constitution and Female Weakness.

NURSING MOTHERS, who suffer from poverty of milk, will find it a specific for their troubles. It stimulates the lactation, sharpens the appetite, invigorates and builds up the entire system, and excites a generous flow of milk.

WEAK AND SICKLY CHILDREN, who suffer from indigestion and weakness, the result of disease, over-study, or nervous strain, will derive substantial benefit from its use. It restores the system to its normal condition and brings back the bloom of youth.

INVALIDS AND CONVALESCENTS will find it admirably adapted for sustaining life, and restoring lost strength. When the stomach is weak, and refuses nourishment, the Extract will prove an excellent substitute for food. It soothes the appetite and restores the system.

DELICATE FEMALES, who suffer from the weakness of their sex, will derive lasting relief from its use. It improves the digestion, purifies the blood, stimulates the appetite, and restores the system.

WEAK AND DELICATE PERSONS GENERALLY, who require some artificial restorative—and especially those who are afflicted with Consumption—will find this preparation exactly suited to their needs. It is a specific for the Cough and Nervous Affections usually incident to a low state of the system.

AS A FLESH RESTORER it possesses the highest value. The whole tendency of its action is to stimulate the system, and to restore the system to its normal condition and bring back the bloom of youth.

THE LIEBIG MALT EXTRACT is a pure concentrated Fluid Extract of Malt, agreeable to the taste, and free from alcohol. It is readily retained on the stomach and contains none but wholesome and nourishing ingredients. The genuine preparation bears on the label a fine engraved picture of a man in a military uniform, and a fac-simile of his signature, as well as that of A. JOTTINGS.

Choice towels at Levy's.

The Reno White House is the place to go.

Leadbetter has a nice lot of fresh candies.

Fourth of July will soon be here. Are you ready?

The District Court stands adjourned until June 20th.

No better cigars in the State than those kept at E. Meyer's store.

Mrs. Scott has a fine residence on Fourth street which is nearly completed.

Thermometer at 7, 9, 11, 1 and 8—62, 68, 68, 69, 68. Walking canes at Nasby's.

The Carson river was stocked last Monday with over 20,000 McCloud river salmon.

C. A. Bragg & Co. have received a car-load of Oregon pine scented suitable for wagon beds. See ad.

Geo. Smith of Pleasant valley, says the crops are good and the valley is growing. Which means that Smith is felling the sage tree.

George Becker contemplates a trip to Plumas county. His increasing business in that section makes it necessary that the Pacific Brewery should show up.

The Reno Guard received and apportioned arms and equipments last evening. Captain Moger explained the simpler movements in the manual, and the big corporals and high privates showed a commendable desire to learn.

The excursion to Carson Sunday will be a success and enjoyed by everybody. There will be a large crowd going from here. In fact the whole town intend going, and the Ture Verain Society can make calculations on seeing a jolly party from Reno.

A Dead Thing.

The Ladies Temperance Union will give a soap bubble social. A pair of yellow legged chickens will represent the spoils, and the biggest bubble takes the most. The chickens might as well be given to M. J. Smith. He is the only blacksmith in the world who blows his fire without bellows. Tom Hymers will be second and ought to have the feathers.

Bitten By a Dog.

"How'd ye git that hole in the seat o' yer pants, Brown?"

Brown examines the hole critically and says, "How'd hell did I get that, new pants, too. Guess some cussed dog must have bit me some night when I was goin' home drunk."

A CRUSHED TRAGEDIAN.

His Surprise at Judicial Courtesy and His Complaint Against the Press.

When Nedles the Eminent tragedian confronted Judge Young recently, his honor made the usual inquiry "guilty or not guilty." A far away look came into the fine eyes of Nedles, and it was generally believed that he was about to recite Hamlet's soliloquy, but he did not. He merely sighed a whistling sigh, and said in a loud voice "its a long time Judge since I have been asked yon question." The subsequent proceedings consisting of the formal commitment of the famous actor seemed totally uninteresting to him, and he merely said when led away by the lappel of his duster: "The newspapers are to blame. If I leave Bodie they say "Look out for Nedles," and sure enough the Constable's always waiting for me, but the idea of the Judge asking me that question. He's a good old man, but not tart enough for these times.

Imposition Practiced by Theatrical Managers.

The Sacramento Record-Union of yesterday contains the following: "Theatrical managers of San Francisco have a poor idea of the taste of the people of the interior, and speculate altogether too much upon their good nature when they do as is now announced in San Francisco is to be done with a popular company in a popular play. The proposition is to draw off the really able "people" of the east, fill their places with supernumeraries and secondary actors, and send the troupe out into the country while the leading people rest at the seaside. Perhaps the interior will take this cruel, and perhaps it will not." Theatrical managers in too many instances think country people very gullible. They will fit out a company of dead beats at a small expense, start them out as "an all star combination," charge double the admission that a first-class troupe would charge in the cities, and expect to draw full houses. When they find the theater filled with empty benches they call the place "a poor show town." As a general thing country people appreciate a good troupe, but they are balked so often by managers, that a really meritorious company sometimes fail to receive the support they deserve.

"Our Goblins."

The St. Louis Globe Democrat says this of Mitchell's Pleasure Party: "Mitchell's Pleasure Party, decidedly the best comedy musical company on the road, opened to a fine house last night at Pepe's and gave a splendid entertainment. The piece is in two acts and replete with fun and good music excellently done by a company of more than the usual merit. Mr. Wm. Gill, an old favorite here, is at the head of the company, and in conjunction with Messrs. Wilson, Forrester, Norcross, and the Misses Deering, Carson and Barrie send the audience away with sides aching from merriment." The troupe will appear at Nevada Theater Saturday evening. The box-sheet is rapidly filling up.

Asylum Contract.

The Commissioners for the care of the insane held a meeting at the capital yesterday to receive bids for furnishing the Asylum with supplies. The contracts were awarded as follows: For groceries and tobacco, to A. Lindley; wood, John F. Devoy; meats, L. J. Flint; drugs, Osburn & Shoemaker. The patients will leave Stockton in a special train the afternoon of the 30th and arrive at the Asylum early the next morning.

The Day We Celebrate.

The celebration on the Fourth of July promises to be a grand success. The committee, as will be seen by an advertisement in another column, have arranged a programme. The finance committee have raised nearly enough money to defray the expenses, and Reno, with the assistance of neighboring towns, will present a lively appearance Fourth of July.

New Butcher.

Charles Ziegler, the well known Comstock butcher, has bought the meat market lately occupied by Flint, and will keep the finest beef, mutton, pork, etc. Mr. Ziegler understands every branch of the business, and being in a position to take advantage of the market he can furnish meats, wholesale or retail at the lowest rates. Citizens of Reno will do well to try Mr. Ziegler, and will find him a pleasant gentleman to do business with.

Nail Him.

When an oily man approaches you with corn medicine shows great confidence in your honesty, gets into your debt two dollars and leaves a cheap valise behind the counter "until he goes up street," ask him for the key. It will save you the trouble of breaking open the bag in order to secure the box of Russian salve which is inside.

Improvement.

The addition to Jake Becker's saloon is about completed. The painters and kalsominers were hard at it to-day and the room will be finished this week. Jake now has a mammoth hall 80 feet long where he will entertain the votaries of Gambrinus in frothy style.

A BOLD MILITIAMAN.

He Advances a New Scheme For the Extirmination of the Apaches.

Asa Dawson says that General Forsythe of Arizona may be an Injun fighter, and he may not. "But I notice," said Asa, "that he has entirely overlooked the question of target practice. He has made a mistake, and put a six-pound pull on his bridle instead of the trigger of his gun. I have waded in some little gore myself, you know, and I would simply like to be dropped down in the Apache country with a couple of targets and ten picked men. I'd shoot them Apaches for every dollar they could raise. Then I'd win their guns and ponies, and there you have 'em. This is practical, an' I mean business. Besides my military experience, I can imitate a Cherokee war whoop and ride bareback. Just put me through the manual. Now, Hay-foot—straw-foot—Winnemucca—Winnemucca!"

Asylum Appointments.

Dr. Dawson has made the following appointments, to take effect July 1st: Supervisor, C. B. Martin, of Wadsworth; steward, Asa Dawson, Reno; Matron, Mrs. M. A. Walker, Virginia; engineer, C. W. Eaton, Reno; carpenter, A. H. Tufts, Dayton; chief cook, Chas. T. Legate; baker, John Zimmerman, Virginia; watchman, Henry Johnson, Reno (for years clerk with Schooling et al.). He has appointed attendants as follows: W. J. Cooley, George Simpson, J. H. Coughlin and Mrs. N. W. Egar, Reno; Mingay and Miss Maud Crawford, Carson, and A. O. LeVigne, Virginia.

The Second Heat.

Theodore Winters' famous mare Duchess of Norfolk is expected to give a good account of herself at the running meeting soon to be held at the Chicago Driving Park. Winters goes East to see the races, and the boys may have to pay his expenses. This is the second attempt to try conclusions with the East, and the many friends of honest sport on this coast will heartily congratulate Winters should he succeed. The GAZETTE will advise his Washoe friends of the event.

The Dwelly Mill.

Reports from the Dwelly mine, Walker River, are very encouraging. The work of bringing water to the mine and mill has been completed. The supply is abundant and the mill is now running smoothly on ore which was extracted from the mine last winter. The owners are all Reno men and think they have all they want. R. W. Parry, a well-known Pyramid miner is in charge of the mining force.

Grand Chapter R. A. M.

The Grand Chapter of R. A. M. convened Monday in Virginia and concluded their labors yesterday. The following officers were elected for the ensuing year: W. Timpson, Grand High Priest; Robert H. Elam, Deputy Grand Priest; A. L. Fitzgerald, Grand King; J. E. McDonald, Grand Scribe; H. S. Mason, Grand Treasurer; J. D. Hammond Grand Secretary.

Governor Kinkadee's Acceptance.

Governor J. H. Kinkadee has accepted the invitation of the citizens to visit Reno on the Fourth of July and join our people in celebrating that day. The Governor will come accompanied by his staff officers if possible. He writes W. A. Walker, Chairman of the Committee of Arrangements, that he will make every effort to have his staff join him.
